

# SPECIALIST SERVICES

## Telethon Speech and Hearing

The Telethon Speech and Hearing Centre has been affiliated with Servite College for 36 years. As a Hearing Outpost, the Centre supports our hearing impaired students with a tailored academic and social plan as well as specialised staff. Our students use technical equipment such as FM transmitters to optimise their learning and our mainstream teachers provide lessons that are conducive to meeting the education needs of these students.

Telethon Speech & Hearing

## Students with Special Needs

The Blessed Joachim Centre plays an integral part of the Servite College Community by providing support to students who have special needs. Students who access this centre have a diverse range of disabilities and are taught by experienced, qualified and dedicated teachers and teacher assistants. Our students have an Individualised Education Plan to develop their knowledge, skills, and understandings where possible in a mainstream class and are encouraged to participate in all College events to the best of their ability.
