

TRANSITION TIPS FOR STUDENTS

The first day of high school is a very exciting time for Year Seven students and equally exciting for older students joining us from other high schools. The following tips will help to make your first day, week, term and year at Servite go smoothly.

- Get organised and make sure that you have everything ready that you need to start school. Make sure that you know how you are getting to school and work out what time you need to wake up so that you are ready in time.
- If you are not sure of something, make sure you ask someone. You may talk to your parents, teacher, friends or Assistant Deputy Principal if you need help. Remember that on the first day of school you are not expected to know how everything works or where to find everything – the other newly commencing students are probably unsure as well.
- Catch up with friends who you know are going to Servite College over the Christmas holidays and talk to them about going to high school. You could also organise to go to school with a friend on the first day so you can help each other find your way around.
- Most importantly, have fun!
