

Supporting curiosity, creativity and collaboration

At Servite College, community is the foundation of a caring and challenging learning environment that enables students to become all they were created to be.

"Everyone is welcome at Servite," Servite College Principal Silvana Vicoli said.

"Our genuine learning community supports each student to achieve their best.

Silvana Vicoli.

"Partnering with families to support their children's growth into young adults prepared for their future worlds is a responsibility we feel honoured to own."

Inspired by Servite College's charisms of Marian, Community and Service, the school provides unique pathways to shape forward-thinking learners who have the humility and the courage to lead.

An engaging curriculum and diverse co-curricular opportunities build on a deep commitment to student wellbeing and holistic development.

Extensive pastoral care services complement innovative teaching practices aligned with The Servite Way, a school-wide framework that matches learning experiences with students' cognitive, physical, emotional and social development.

"We deliver tailored programs to ensure we provide an education where each student is cared for and known as an individual," Ms Vicoli said. "Our conscious size and close community enable us to be highly responsive, as we partner with students in designing personalised learning journeys."

Within a safe and inclusive space that celebrates difference, students' unique abilities are recognised at Servite College.

Teaching and learning is differentiated using ongoing data to ensure each learner is fully developed across a range of learning areas and that all members of the school's learning community are assisted to reach their potential.

Ensuring the dignity of each student is respected, the purpose-built Learning Diversity Centre is a hub for the development of strengths-based learning programs for students with diverse learning needs.

Dedicated staff deliver services for students across the educational spectrum, from provision of additional support to opportunities for curriculum acceleration, extension and enrichment learning.

The culture of the school supports curiosity, creativity and collaboration, as reflected in the ongoing strategic development of the campus.

"As the college evolves, we are excited to continue building programs that support our students to develop the skills, attributes and values to thrive as leaders of tomorrow," Ms Vicoli said.

The school's distinctive graduate expectations reflect the global heritage of the Servite tradition and the compelling purpose of a contemporary Servite education.

"Grounded and resilient, Servite College graduates are committed to making a difference as they offer their service to the world as agents of change," Ms Vicoli said.

Servite College is centrally located in Tuart Hill, with an additional 55-acre rural campus near Nannup, surrounded by forests and farmland in the South West.

To join an open day at Tuart Hill or to book a private family tour, call 9444 6333, email enrolment@servite.wa.edu.au or visit www.servite.wa.edu.au.
